Prizes: CCCX Medals for top finishers in each division at each race. Top 3 overall times each race receive cash pay-out. Series Prizes awarded to top finishers in each division at series final.

Best **Four** Results Plus Series Final = Series Point Total

Race 1 DH Course- The course has been selected for race #1. It looks to be a true DH test with some railing trails that have never been used before for any cycling event. The opening is high speed, with some roller coaster like sections, where riders can really get some serious speed. There are a few blind turns where gravity will be felt as racers swoop off of hills and drops at high speeds. Then the course dips into some super tight single track trails that highlights braking and turning ability of rider and bike. Be sure and watch your speed here as it is steep and tight and there is a high possibility of over shooting some tight turns. This route looks to have perfect traction in the dirt with the past few rains, and if the weather holds up, this could be one of the sweetest DH courses around! Like in all CCCX DH races, there will be some pedaling near the end that will check your fitness and form.

Please remember to respect other Toro Park users and be thankful to the Toro Park Rangers for allowing the DH races to take place! There is a 30 minute hike to get to the start area. Please follow direction signs to parking for the CCCX DH Event.

Toro Park Rules- Please be respectful of other Toro Park users. There can be no alcohol onsite. When driving in Toro Park please follow posted speed limits. We are fortunate to be able to hold events in this beautiful area, please respect other park users and always show the Park Rangers gratitude when you have a chance!

Practice- There will be no walking up the DH courses backwards. Please follow direction signs up the proper access route to the start, and do not ever walk up the course backwards. Please only access the start via the proper route for racers, and not backwards up the race course itself. Anyone caught walking backwards up the course on race day will be disqualified. The course will be marked completely by 2:00 p.m. the day before each event. Riders will be allowed to take inspection runs on the course at this time. Please control your speed and follow Toro Park cycling speed limits when riding before the event date. The DH courses are on Toro Park trails that are shared with hikers and other park users before race day. Please use caution when riding these trails on non race day dates and yield to other park users. Race day the DH course will be closed to everyone but cyclists and practice is open for all riders who have registered, signed a release form, and have a number plate on their bike.

Registration- There will be onsite registration from 2:00 p.m.- 5:00 p.m. the day before each event. The day of the event registration will be between 8:00 a.m. and 11:00 a.m. Park gates open at 8:00 a.m. Everyone must sign a release form before riding.

Start Times- Racers must select a start time at registration. At the start, riders will be called up according to scheduled starting order. Please allow enough time to get to the start line from the parking area. Most courses take about 30-35 minutes to ride-hike to the start, but other routes have been longer. Please check at registration for estimated ride-hike time to the start.

Info subject to change: Please check the CCCX website the week of each event for current information and race course description! www.cccx.org
