## THE GREAT CARROLL COUNTY CYCLING EVENT 2007

[WWW.CC-CYCLING.COM](http://WWW.CC-CYCLING.COM)

CHADWICK, CARROLL COUNTY, IL  
JUNE 16, 2007

Chadwick, IL was the host town for this year Annual Bicycle Road Race through Carroll County. Registration, Start and finish were located next to the High School. The first wave to start was the Ability category 1&2, 3, Master age 30 and 40. Second start 5 minutes later was the beginner ability Category 4. The third wave start at 5 minutes later had the Master age 50 & 60 start first, then at one minute combined Women 1,2,3, Women Category 4, Women Master 40 & 50. The final wave start at 5 minutes had Masters 65, 70 & 80+, Women Master 60+ & 70+ and Recumbent.

The course consists of 62 miles of beautiful scenic hills, valleys, towns, cities and great low traffic roads. County Sheriffs lead each wave start and a follow vehicle carried water and riders wheels. Town, City and State police controlled traffic at "busy" intersections, bike path and the last turn before the finish line. 5ft wide by 4ft high signs with huge arrows pointed the direction as you approached intersections. 50 yards after the start you crossed a set of railroad tracks and then descended into a valley for a short while and then climbed to the next plateau and so it went rolling to Thomson. The flats to Savanna were a great relief. The Category 4 riders were stopped by a train at a crossing before reaching the bike path, which made it possible for, the Master 50 riders to catch on the path section into Savanna. Thank you CC Cycling for the water station with volunteers handing up the water as we finished climbing Savanna Mountain to reach the hills that take us to Mt Carroll cobble hill and Lanark twists to the flats. This area is always where riders make breakaways, some work, some fail but all are tough on rider endurance. After screaming up and down the hills and turns it was great to see the Lanark water station helpers holding cool drinks. Not much further to Chadwick and the FINISH.

This year a few road maintenance workers decided to rebuild a short section of roadway near a railroad crossing the morning of the event, TO THE MUCH SURPRISED PROMOTER and COUNTY SHERIFF. No time to redirect the racers down an alternate route so they essentially neutralized the race by yelling GET OFF YOUR BIKES AND WALK. Some did not and fell, a few decided to break away but then they missed the next turn, some followed but were caught by the Promoters car who sent them back to make the correct turn. 8 riders went about 4 miles the wrong way and made it back onto the course but were now really eight miles behind the lead riders who followed the correct course.

This was the most competitive race in the 4 years I have been racing Carroll County. Great job, see you next year.

After the race there was live music, great food and drink, and most important a cool place to lay down and relax.

### RESULTS
